The New School Is...

Colleges in New York City

Comprised of seven divisions, The New School is a legendary progressive university in New York City. From the start, we've aspired to be open to dissenting opinions and the avant-garde in scholarship and the arts. Students from around the world come to Greenwich Village and The New School to participate in an intellectual life of critical analysis and experimentation. Learning is driven by discussion in classes led by faculty known for their creative, interdisciplinary approach to problem solving. Visit and engage with The New School, find more information, and apply for one of our rigorous, selective programs in art and design, social science, liberal arts, management and public policy, media, or performing arts.

What is the
difference?

HTML

WHAT it is

vs.

CSS

what it LOOKS LIKE

What are some
things you might
want to modify the
look of?

Design by

Committee

CSS Syntax

```
SELECTOR {  
    RULE : VALUE;  
}
```

CSS Syntax

classes and ids

```
<img class="avatar" />
```

```
<span id="first_name">
```

CSS Syntax

classes and ids

```
<img class="avatar" />
```

```
<span id="first_name">
```

.avatar

img.avatar

#first_name

span#firstname

CSS Syntax

classes and ids

```
<img class="avatar" />
```

```
<span id="first_name">
```

.avatar

img.avatar

any element with a
class name "avatar"
any image with a class
name "avatar"

#first_name

span#firstname

any element with an id
of "first_name"
any span with an id of
"first_name"

CSS Syntax

spaces and commas

img

all images

p, img

all paragraphs and all images

p img

all images that are inside a paragraph

p.avatar

all paragraphs with a class name avatar

p .avatar

any element with class avatar inside a paragraph

all paragraphs and all elements with a class name avatar

CSS Syntax

```
img.avatar {  
    RULE : VALUE;  
}
```

CSS Syntax

colons, quotes, semicolons

most rules use quotes
if using text

rule colon value semicolon

```
height: "24px";  
border: 1px solid #000;  
margin-top: 3em;  
margin: 0 20% 20% 0;  
font-family: "Helvetica";
```

some properties need
multiple inputs

numbers don't need
quotes, but need units

some properties can be
split up or stated all
at once

Helvetica is a good
typeface

CSS Syntax

```
img.avatar {  
    height : 100px;  
}
```

CSS Syntax

```
img.avatar {  
    height : 100px;  
    width: 120px;  
}

The agony & ecstasy of floats

How the browser renders each successive element is called "the flow". When you position elements in different ways the browser will either include it or not include it in "the flow".

Positioning drills

Plant Your Zen Garden

Homework!

Write three different stylesheets for the mini-zen garden template given to you.

BONUS POINTS: *If you upload them all to your server, and create unique urls for each of the three versions of the same page. (hint: google is your friend if you get stuck)*
