

Overpopulated (UX, CSS)

(Individual) Students delete elements from a page to make it a better experience.

Time: 10 minutes

Core concept: The importance of focus.

Materials:

- Sample page

Procedure:

- Students are given a sample page and told to visit it.
- Ask students what's bad about it?
- Tell them to make it better by removing elements. They are not allowed to add anything. (More advanced students can alter the markup, weaker students could use firebug/inspect element)
- Check in pairs.
