Find the Problem *(UX)*

*(**Whole class**) Students discuss what the underlying problem is to a solution that's given to them.*

Time: 10 minutes

Core concept: Solutions that are given to you are not always the best way to solve the underlying problem.

Materials:

- Flashcards

Procedure:

- Teacher pulls a card and reads the solution to the class.
- Students are encouraged to discuss whether or not they think it's a good solution and why or why not.
- Once a consensus is reached the teacher should express their thoughts
- If more discussion ensues, continue until consensus is reached again.
- Else, repeat with new cards as needed.
