CSS Makeover *(CSS)*

(Small groups) *Students play with CSS styles to achieve different emotional impact.*

Time: 10 minutes

Core concept: Presentation is important in relation to communication.

Materials:

- Sample site
- List of emotions

Procedure:

- Divide students into small groups of 3–4.
- Each group goes to the sample site and uses Firebug to alter the CSS.
- Students change the rules to achieve whatever emotion the teacher calls out.
- Go quickly around the room to check at each emotion before you go to the next one.
