Twilio - twilio.com
Twilio offers developers a powerful API for phone services to make and receive phone calls, and send and receive text messages. Their product allows programmers to more easily integrate various communication methods into their software and programs.

15Five - 15five.com
Know the pulse of your company. Surface problems, celebrate wins, discover great ideas and stay tuned in to morale. 15Five is based on a simple idea. Have each employee spend 15 minutes a week writing a report that takes their manager no more than 5 minutes to read. We've taken that idea to the next level by turning reports into conversations, and making it simple for managers to roll up the most important problems, insights, ideas and success stories.

AQUSH - exchange.co.jp
Exchange Corporation ("ExCo") is a nationally licensed Japanese Non-Bank Lender and Type II Financial Instruments company, based in Tokyo. ExCo operates the AQUSH.JP peer-to-peer lending service for borrowers and lenders in Japan.

Baydin - baydin.com
Baydin makes email management tools that help customers spend less time wrestling with email and looking for information, and more time doing meaningful work. The Email Game is the fastest, most fun way to manage your email.
